Newborn Circumcision

Dear Obstetric Patient,

We would like to thank you for choosing Woman's Group of Meridian to provide quality care for you and your baby. This letter is to inform you that Dr. William Hamilton performs circumcisions in our office after the delivery of your son.

For patients wanting their child's circumcision performed by Dr. Hamilton, our Office Policy requires that all circumcision arrangements be made prior to the actual procedure. **There is a fee of \$300.00 for the circumcision. This amount will need to be paid to our office before the procedure is performed.**

Some insurance companies will cover the procedure, however, it is our policy that this procedure be paid in full prior to services rendered. If your newborn son is covered by an insurance policy, as a courtesy, our office will submit a claim to the insurance company for the cost of the circumcision. Please keep in mind that annual deductible, co-payment, and/or co-insurance percentage may apply. If there is a credit balance on the account after insurance has paid, the credit will be applied to family account balance. Otherwise, if there is not an outstanding balance, the credit will be refunded to you.

If you decide to have your newborn circumcised, please call our office as soon as possible after the delivery of your son to schedule an appointment for the circumcision.

Your baby must be under 6 weeks and under 10 pounds to be circumcised in our clinic. Please do not feed your baby two hours prior to scheduled appointment time.

Please submit my claim to _____.
If my insurance does pay, you will refund to me any credit balance remaining on the family account. I agree to be personally and fully responsible for payment for this procedure.

I have read this document and I understand my financial responsibilities. I agree to all the terms and conditions and any revisions to those terms and conditions.
